

Welcome

Life can be simple, but it can also be challenging. Parents age. Injuries happen. Illnesses strike. While all these happen as part of a simple life, we have a simple solution through home health services provided exclusively for you or someone you love. **TLC Care Services, Inc.** is a reliable care provider you can invest your trust into.

Life can be simple, but it can also be challenging.

Our aim is to give value to each patient we serve. We honor their wishes and care preferences. Because most patients prefer staying at home than being confined in a care facility, we make that wish come true. Services offered by our agency present flexible schedules and care program options that will suit even the most specific of health care requirements. We understand what your home means to you and we maximize your health while you enjoy the comforts of being able to stay there - less travel, less hassle and better quality of care.

A Tradition of Quality in Home Healthcare

About Us

The TLC philosophy of care and drive for excellence

TLC Care Services, Inc. ensures that all our clients are completely comfortable when we provide them with the treatment services they are prescribed with. Our philosophy of care revolves around specifically meeting unique needs for unique clients. We respect their individuality and privacy. To accomplish the excellence of care that we aim for, we have a zero-tolerance for mediocrity. Care staff members are guaranteed to treat each client with flexibility, integrity and patience.

We are a Family

When you become a client at **TLC Care Services, Inc.**, you become family too. We become attached to those people we care for and this results to genuine concern for their health and well being at home. Every member of our staff has also been briefed to be sensitive to the patient's needs as well as the family members'. We are careful to preserve the accustomed household dynamics as we administer care services in your homes.

Humility in Service

As a locally-owned home health service provider, we consciously act on keeping our humility. We appreciate feedback and criticisms - both good and bad. We understand that by being humble and open-minded, we become more flexible to meet the changing needs of various patient types.
